TERMS OF SALE

2% for cash with order
or 2% 10 days, 30 days net for established accounts.

Unless otherwise specified, Bulbs will be shipped when dug in the Fall.
Approximate earliest delivery date is indicated for each variety.

We will accept orders for spring delivery provided they reach us not later than December 1. Spring orders will be placed in cold storage and shipped as directed at no extra cost until April 1. After April 1 a nominal charge will be made for storage.

All Bulb prices are F.O.B. Lake Grove, Oregon, and are subject to change without notice.

Our wholesale price lists are intended for the trade only. Kindly do not hand them to amateur growers.

In ordering please specify whether shipment is wanted via parcel post, express, or freight. If wanted by post kindly include postage with remittance.

In shipments of 100 pounds or more we find air freight rates to the principal cities cheaper than railway express or equivalent to motor freight rates. In many instances this may be your cheapest and fastest means of delivery.

We will accept Trade orders for direct shipments to retail customers at our regular prices for the quantities involved plus postage and a moderate packing charge. We suggest that such orders be accompanied by the seller's mailing labels properly addressed and such shipping instructions as may be needed.

Orders for growing crops accepted subject to crop failures, shortages, or other matters beyond our control.

Any claims for shortages or errors must be made within five days after receipt of goods as we will not be responsible after that time. We give no warranty, expressed or implied, as to description, quality, productiveness or any other matter in connection with the success of the seeds, bulbs or plants sold by us and will not be responsible in any way in cases of failure, other than to replace bulbs untrue to name. If the purchaser does not accept the goods on these terms, they are to be returned at once.

QUANTITY RATES ON LILY AND MISCELLANEOUS BULBS

25 Bulbs one variety and size at 100 rate.

250 Bulbs one variety and size at 100 rate less 10%.

Wholesale orders cannot be accepted for less than five bulbs of one variety and size except on items priced per each. Where so priced 1 to 25 bulbs will be supplied at the each price, 25 or more at single bulb price less 10%.

Flowering size indicates bulbs which will have flowered at least one season in our nursery. Large or 1st size bulbs are top size for the particular variety.

In compiling this list of northwest grown lilies we have added several varieties of which we have ample stock to offer this season. In addition we grow moderate quantities of a number of other varieties and welcome inquiries concerning any which are commercially available at the present time.

In the following price list we have endeavored to briefly describe all of the stock offered by indicating flower type and size, color, height (maximum average for mature established bulbs) and flowering period under Northwest climatic conditions.

HIGHEST AWARD

LILIES For Garden and Greenhouse

For the past 28 years it has been our good fortune to have been actively engaged in the propagation of Lilies for the horticultural trade. During that period we have gradually expanded our collection, each year adding stocks of the newer hybrids and the more rare species, and each season offering to the trade a complete collection of Lilies available from Northwest grown stocks. Our current 1958 catalogue is, we believe, the most representative to date. The new hybrid lilies listed under the heading of 1958 Introductions represent the culmination of many years of painstaking work by us and our associated growers and their selection and final introduction has been accomplished only after every consideration has been given to their acceptance as dependable garden subjects under a wide variety of growing conditions. In addition to our current season's introductions, stocks are again available of several popular hybrids and strains which were not offered last year, including the Potomac Hybrids, Redbird and others of equal merit. The demand for hybrid lilies is difficult to anticipate and on some occasions stocks are depleted to such an extent that it becomes necessary to withhold an offering for a season or so to assure replenishing the supply. In general the hybrid lily situation is one of continued improvement. Succeeding generations of seedlings have done much to better existing strains and clonal selections are being propagated and introduced which are greatly superior to those available a decade or more ago. That the future holds the promise of many more new and exciting additions to our hybrid lily stocks cannot be denied.

Our list of Lily species has again been expanded to include several more of the rare and unusual for which we find a continued increase in demand. The greatly expanded market for lilies in recent years, brought about to a large extent by the publicity accorded the many new hybrids available, has created a renewed interest in the species among serious garden enthusiasts. While it would be virtually impossible to offer every known species, we welcome inquiries for any not currently listed and we will gladly endeavor to secure them or suggest a source of supply.

For some years past we have been developing large stocks of hardy cyclamen and, from a small beginning, demand for these interesting and attractive plants has increased until they are now a major item with our trade. Included with this catalogue is a display card for use in promoting their sale as suggested under the listing of Sales Aids on page 9. Due to an exceptionally good growing season our cyclamen stocks were never better, either for shipment as dormant corms in the summer or as growing plants during the balance of the year. We are certain that a trial planting will create lively interest with the retail trade.

In conclusion, we suggest the possibility of extending the sales season for hardy lilies by offering them as growing plants during the spring and early summer. A great many varieties can be successfully handled in this manner, by planting in pots or other containers during late winter the bulbs will make just the right amount of top growth for rapid sale during the spring planting season.

1958 INTRODUCTIONS

L. AURELIAN DAWN PINK TRUMPETS—The colors in this group are distinctly reminiscent of an early morning summer sky. All the deepest shades of rose and pink are combined in this strain with little difference in coloring between the interior and reverse of the petals. 5 to 6 feet. July to August.

L. AURELIAN PINK PEARL TRUMPETS—Selected light and blush pink shades, the reverse of the petals deep rose or reddish purple. Height and flowering time same as Dawn Pink above.

Note: It has been apparent for some time that the group of Aurelian Pink Trumpets offered by us was actually comprised of two distinct strains, the deep colors and the lighter tones. The two strains listed above represent this natural segregation and we will hereafter offer them separately, both groups carefully selected at flowering time from the original Aurelian Pink Trumpet stocks.

L. AURELIAN GREEN KNIGHT FLARES—A strain of large flaring types in greenish yellow and green white shades. Very unusual coloring in this group. 5 to 6 feet. July to August.

L. AURELIAN HYBRID Mme. Edouard Debras—Named for the wife of the originator of L. Aurelianense, this hybrid clone carries large broad petaled, thick textured flowers which open flat with recurved tips. The blooms are outward facing, carried on strong stems growing to four feet in height. The color may be best described as a greenish or sulphur yellow self, blending to a slightly deeper tone at the base of the petals. Flowering period late July. This plant was selected by Mme. Debras as her favorite from a number of seedlings sent to her by Carleton Yerex.

L. AURELIAN HYBRID Shenandoah—Large flaring type flowers carried on graceful, wiry stems at a height of 5 feet. The outer half of the petals is ivory white, the inner half deep apricot. An exceptionally attractive bicolored flower of fine form and texture. Flowering period late July.

L. BALLERINA—A new Martagon-Hansonii hybrid, distinctly different in flower type from others of this group. The flowers open flat and remain so until the petals fall, with no recurving except very slightly at the tips. The blooms are well spaced in a pyramidal head, producing an impression not unlike an oriental pagoda. The color is chrome yellow with a few maroon dots and the substance is very good, a stem with twenty or more flowers open at once is not at all unusual. Flowering period late June. Height 4 to 5 feet.

L. CAMEO HYBRIDS—A new strain of hybrids derived from crosses of L. Auratum Platophyllum and its variants with forms of L. Japonicum. Two distinct color groups have been selected in this strain, both of which carry large bowl shaped flowers similar to Auratum Platophyllum in form. The Pink Cameo Hybrids are, as the name implies, entirely pink in varying shades with occasionally a few deeper pink dots toward the base of the petals. The paprika red anthers produce a pleasing contrast with the petal color. The White Cameo Hybrids are pure white except for a faint suggestion of a gold band and occasionally a few pink or yellow dots in the flower throat. Anther color varies in the White Cameos from yellow to paprika red. Both color strains are pleasantly fragrant without being overpowering. Average height 3 feet. Flowering period extends from late June to late July.

L. MORELIA—A vigorous new selection from the Bellingham hybrid group carrying large pendant recurved flowers of deep cadmium yellow with saturn red tips. The petals are dotted dark maroon. Height 5 feet. Flowering period early July. An outstanding clone superior to Shuksan.

L. PIERRETTE—A new hybrid related to the Preston group and derived from crossing Hurricane with the species Dauricum. The resultant plant is a robust grower carrying large heads of semi-upright, flat opening flowers on strong pedicels. The color is cadmium yellow at the base, the petals tipped blood red for about $\frac{1}{3}$ of their length. The yellow base is mahogany dotted. The flowers are of heavy texture and the color holds well with little or no fading in full sun. The plant blooms in late June on stems to 3 ft. in height.

L. SATELLITE—A selected clone from seedlings of the species Dauricum, this lily carries deepest blood red upright flowers in an attractive umbel on 2 to 3 ft. stems. A few black dots appear at the base of the petals. Late June flowering. 1st Award in its class at Seattle N.A.L.S. show.

LILY SPECIES

		Per 10	Per 100	Delivery Date
L. Amabile Luteum — Recurved, medium, Indian yellow, dotted red brown. 3 ft. Late June.	3-4".....	3.00	24.00	Oct.
L. Auratum (Type) — Bowl, large, white with crimson spots and golden band. 6 ft. August.	6-7"..... 7-8".....	4.40 5.60	35.00 45.00	Oct. Oct.
L. Auratum Late Form — Similar to the type auratum except flowering through September.	6-8".....	8.15	65.00	Late Oct.
L. Auratum Pictum — White, heavily spotted crimson, petal tips flushed crimson.	Flowering size.....	2.00 each		Late Oct.
L. Auratum Platiphyllum — Larger flowers of great substance with broader foliage than the type. 6 ft. August.	6-7"..... 7-8"..... 8-9".....	5.00 6.25 7.50	40.00 50.00 60.00	Late Oct. " "
L. Auratum Praecox — A distinct form with flowers similar to the type but from 3 to 4 weeks earlier. 3 to 4 ft. July.	Flowering size.....	8.15	65.00	Oct.
L. Auratum Tricolor — Pure white, unspotted form of auratum platiphyllum with distinct gold band. Extra large flowers.	Flowering size.....	18.75	150.00	Late Oct.
L. Bolanderi — Bell, small, claret rose with chartreuse green throat. 2 to 3 feet. July.	Flowering size.....	18.75	150.00	Oct.
L. Brownii (True) — Trumpet, large, marble white stained oxblood red on exterior. 3 to 4 ft. Early July.	Large flowering size.....	2.00 each		Oct.
L. Canadense Flavum — Bell, medium, golden yellow spotted mahogany. 5 ft. Early July.	1st size.....	3.75	30.00	Oct.

		Per 10	Per 100	Delivery Date
L. Chalcedonicum —The scarlet martagon lily. Recurved, medium, mandarin red. 3 to 4 ft. July.	Flowering size.....		2.00 each	Oct.
L. Columbianum Ingrami —Recurved, medium, persimmon orange dotted red brown. 5 to 7 feet. June to July.	First size.....	15.00	120.00	Oct.
L. Concolor (Pulchellum) —Erect, small, varies from scarlet to orange lightly spotted mahogany. 2 ft. June to July. 3-4".....		2.50	20.00	Oct.
L. Concolor Partheneion —Taller and larger flowered than the above type. Scarlet red dotted black. 2 to 3 ft. June to July.	Flowering size.....	3.00	24.00	Oct.
L. Cordatum (New Form) —Trumpet, medium, greenish white, dotted maroon at throat and tips. Large heart shaped foliage. 2 to 4 ft. July.	Medium size.....	9.40	75.00	Oct.
L. Dauricum Wilsoni (Late Form) —Syn. L. Dauricum pardinum. Erect, large, deep apricot spotted mahogany. 3-4 ft. August.	Flowering size.....	5.00	40.00	Oct.
L. Formosanum Late var. (Wilson's) —Select White Strain. Trumpet, large, white with green throat. Propagated from pure white flowering stock. 5 ft. September.	3-4"..... 4-5".....	2.10 2.85	17.00 23.00	Late Oct. " " " " " " " " " "
L. Giganteum Himalaicum —Funnel, large, white suffused red purple at throat. 6 to 10 ft. Late June.	4-6"..... 6-7".....	18.75 2.25 each	150.00	Oct. Oct.
L. Grayi —Bell, small, deep red with orange throat and mahogany dots. 4 ft. July.	1st Size.....	5.00	40.00	Oct.

		Per 10	Per 100	Delivery Date
L. Hansonii —Recurved, medium, cadmium yellow spotted mahogany. 5 ft. June.				
5-6".....	3.75	30.00	Sept.	
6-7".....	5.00	40.00	Sept.	
7-8".....	6.25	50.00	Sept.	
8" up.....	8.15	65.00	Sept.	
L. Humboldtii Magnificum — Recurved, large, golden orange spotted oxblood red. 6 ft. July.				
Flowering size.....	9.40	75.00	Oct.	
Large size	12.50	100.00	Oct.	
L. Japonicum — Trumpet, medium, rose pink to light pink. 4 ft. Late June to July.				
4-6".....	5.00	40.00	Oct.	
L. Japonicum Platyfolium — Medium to large trumpets. Rose pink. 3 ft. Mid-June. A northern hardy form apparently intermediate between L. Japonicum and L. Rubellum.				
Flowering size.....	6.25	50.00	Oct.	
L. Kelloggii — Recurved, small, white shaded pink to orchid purple with lemon yellow stripe. 2 to 3 feet. June to July.				
Flowering size.....	18.75	150.00	Oct.	
L. Longiflorum Croft —Large white trumpets on short stems. The most popular forcing lily for Easter. 1½-2 ft.				
7- 8".....	2.90	23.00	Oct.	
8- 9".....	4.60	37.00	Oct.	
9-10".....	5.60	45.00	Oct.	
10-11".....	6.50	52.00	Oct.	
L. Longiflorum Estate —Almost identical to Croft except taller and later. An excellent garden variety. 3-4 ft. July.				
7- 8".....	2.65	21.00	Oct.	
8- 9".....	4.15	33.00	Oct.	
9-10".....	5.00	40.00	Oct.	
10-11".....	6.00	48.00	Oct.	
L. Mackliniae —Bell, medium, blush pink. 1 to 1½ feet. Early June. A recently introduced Indian species for cool partly shaded situations.				
Flowering size.....	2.00 each		Oct.	

		Per 10	Per 100	Delivery Date
L. Martagon Album — Recurved, small, pure white with golden anthers. 3-4 ft. June to July.	4-6".....	7.50	60.00	Sept.
L. Medeoloides — Recurved, small, orange lightly dotted oxblood red. 2 ft. July.	Flowering size.....	8.15	65.00	Oct.
L. Michiganense —Recurved, medium, fire red shading to Indian yellow at base and dotted garnet brown. 3 to 5 ft. Early July.	Flowering size.....	6.25	50.00	Oct.
L. Neilgherrense —Trumpet, large, cream white flushed yellow at base. 2 to 3 feet. July to August.	Flowering size.....	2.00 each		Late Oct.
L. Nepalense robusta — Large, semi-recurved bell. Pod green with deep purple madder throat. 2 to 3 feet. July. An exotic plant with much larger flowers of better texture than the type usually offered.	Flowering size.....	2.00 each		Oct.
L. Nobilessimum (syn. L. Alexandrae) — Semi-bowl, large, pure white with dark brown anthers. 1½ to 2 feet. July. A rare Asiatic species of great beauty. Pleasantly fragrant. This lily sprouts very early and should have protection from late spring frosts. An excellent cool greenhouse subject.	Flowering size.....	3.00 each		Sept.
L. Occidentale — Recurved, small, buttercup yellow with green throat. Petals tipped blood red. 2 to 5 feet. July.	Flowering size.....	2.25 each		Oct.
L. Oxypetala — A dainty Himalayan species with bell shaped greenish yellow flowers. 1 ft. June.	Flowering size.....	2.50 each		Oct.
L. Parryi —Semi-trumpet, medium, canary yellow with few brown dots. 2½ to 5 feet. Late June.	Flowering size.....	11.25	90.00	Oct.

		Per 10	Per 100	Delivery Date
L. Polyphyllum —Recurved, medium, ivory white with green throat, dotted purple or lilac. 3 to 4 feet. July.	Flowering size.....		3.00 each	Oct.
L. Pomponium — Rare species from the Maritime Alps. Recurved, small, brilliant sealing wax red. 1½ to 2½ ft. Late June.	Flowering size.....	18.75	150.00	Oct.
L. Pumilum (Tenuifolium) Golden Gleam —Recurved, small persimmon orange. 2 feet. June.	3-4".....	2.50	20.00	Sept.
L. Pyrenaicum — Recurved, small, canary yellow with pod green throat. 2 to 4 feet. Very early—late May to early June.	Flowering size.....	18.75	150.00	Sept.
L. Regale —Trumpet, large, white with canary yellow throat shaded externally spinel red. 4 to 6 ft. June to July.	6- 7".....	1.25	10.00	Oct.
	7- 8".....	1.75	14.00	Oct.
	8- 9".....	2.25	18.00	Oct.
	9-10".....	3.00	24.00	Oct.
	10-11".....	4.15	33.00	Oct.
L. Regale Album — An exceptionally fine strain of white Regales with no external coloring. Selected and grown under close supervision over a period of years. Flowering time and height same as L. Regale.	4-5".....	1.65	13.00	Oct.
	5-6".....	2.25	17.00	Oct.
L. Rubellum —Trumpet, small, pale pink to rose pink. 2 ft. Late May to June.	4-6".....	6.25	50.00	Oct.
L. Speciosum Album Novum —Pure white flowers of great substance. Larger and not as recurved as var. Kraetzeri. The best of the white Speciosums. Yellow anthers. Late August. 5 feet.	5-6".....	8.15	65.00	Late Oct.
	6-7".....	9.40	75.00	"

		Per 10	Per 100	Delivery Date
L. Speciosum Magnificum — Recurved, large, white suffused with carmine pink and spotted crimson. Larger flowered and more robust than speciosum rubrum.				
5 ft. August.	6- 7".....	3.50	28.00	Oct.
	7- 8".....	4.50	36.00	Oct.
	8- 9".....	6.00	48.00	Oct.
	9-10".....	7.50	60.00	Oct.
L. Speciosum Magnificum Darkest Red Selection. Large deep crimson flowers edged white. Vigorous and colorful.				
	Flowering size.....	15.00	120.00	Oct.
L. Speciosum Punctatum —Recurved, large, white suffused and spotted rose pink. The earliest flowering form of L. speciosum.				
5 to 6 ft. Late July.	6- 8".....	6.25	50.00	Oct.
	8-10".....	8.75	70.00	Oct.
L. Speciosum Select Seedlings —Recurved, large, white shaded and spotted china rose to rose red. Vigorous seed grown strain derived mainly from Kraetzeri and Album Novum. 4 to 5 feet. Late July to September.				
	5-6".....	3.75	30.00	Oct.
	6-7".....	5.00	40.00	Oct.
L. Superbum —Recurved, large, yellow suffused orange red with brown spots. 6 ft. July.				
	1st size.....	3.15	25.00	Oct.
L. Tsingtauense —Semi-erect, medium, persimmon orange with few garnet brown dots. Attractive marbled foliage. 2 to 3 ft. July.				
	4-6".....	6.25	50.00	Oct.
	6-8".....	8.15	65.00	Oct.
L. Vollmeri — Recurved, small, orange, flecked and spotted dark purple to black. 2 to 3 feet. July.				
	Flowering size.....	9.40	75.00	Oct.
L. Wallichianum — Trumpet, large, cream white inside, greenish outside. 3 to 4 ft. September.	Flowering size.....			
		2.00 each		Nov.

L. Washingtonianum Purpureum—“Mount Hood Lily.” Trumpet, medium, white turning to magnolia purple as flowers age. Few reddish dots. 3 to 5 feet. Late June.

Flowering size.....	15.00	120.00	Oct.
Large size.....	18.75	150.00	Oct.

L. Wigginsii—Recurved, medium, yellow spotted mahogany. 2 to 3 ft. Early July.

Flowering size.....	3.00 each	Oct.
---------------------	-----------	------

L. Willmottiae Unicolor (Davidi var. Unicolor)—Recurved, medium, saturn red with few small brown dots. 3 ft.

3-4".....	1.90	15.00	Oct.
4-5".....	2.65	21.00	Oct.

SALES AIDS

Our “Reference Chart of Lilies for Garden and Greenhouse” contains over 2000 items of cultural information covering most of the commercial lilies and is available at \$1.25 postpaid. On request we are prepared to quote quantity prices on the chart for resale. A number of our customers are offering this along with their catalogue listing lilies.

“Basic Lily Culture,” our new pamphlet of information for both the novice and experienced grower, is designed to answer the questions most usually asked concerning the successful cultivation of hardy lilies and is based on over 25 years experience with the genus. Copies may be secured at a cost of 10 cents each in any quantity up to 100. We will be pleased to quote prices on larger quantities upon request. We feel that it will be of material benefit to the Trade to include these instructions with all retail lily orders, particularly to customers who have had limited or no experience in Lily culture. A successful beginning will most likely assure repeat orders in future years.

“Hardy Cyclamen Culture,” a leaflet of complete instructions on growing these popular plants will be included with all cyclamen orders. Quantity orders for this publication will be supplied at cost. Prices on application.

Included with this catalogue is a copy of our new color display card featuring hardy cyclamen. This card is designed to assist in the sale of these plants by mentioning their chief attributes in concise, quickly readable form. We suggest using the card with displays of cyclamen corms or plants either for nursery or counter sale. Additional copies are available on request.

As mentioned in our previous Trade lists, we now have available a new set of color transparencies for lecture and sales aid use. This set has been expanded during the past years and the list now includes over 250 subjects from which to choose. These photographs can be supplied as slides (2 x 2), enlarged transparencies in sizes 2 1/4 x 3 1/4 and larger, or as color prints. A complete list of subjects available and details of their cost will be sent promptly upon request. In corresponding kindly advise whether slides, enlarged transparencies or prints are needed and approximate quantity.

LILY HYBRIDS

L. Aurelian Hybrids—Flower Types contained in this group comprise three distinct forms as follows:

CORONAS—Reflexed or recurved in varying degrees. Petals of medium width. Moderately tall plants producing flower heads excellent for cutting as well as garden decoration.

FLARES—Large, wide flaring flowers intermediate in form between Trumpet and Recurved. A very distinct flower type with a brilliant color range.

TRUMPETS—True Trumpet shaped flowers on medium to tall stems. The flowers are large and of heavy texture.

The above three Types are subdivided into select color strains as offered below. The color strains are carefully selected at flowering time to eliminate any off colors or inferior blooms.

In addition we offer several select clones in the Aurelian group and a strain of special select semi-bowl and semi-recurred types in pastel colors.

	6-8".....	18.75	150.00	Sept.
L. Backhouse Hybrid Seedlings Select — Recurved, small. Vary from white and cream through yellow, orange, red and lavender, dotted brown, rose and purple. 5 ft. Late June.				
	4-6".....	12.50	100.00	Sept.
L. Ballerina —See introductory description.	Flowering size.....		2.50 each	Oct.
L. Brandywine —A 1956 introduction. One of the new Beltsville hybrids. Large heads of outward facing flowers on 3 to 4 foot stems. Orpiment orange dotted ox-blood red. Mid-June.	Flowering size.....	9.40	75.00	Oct.
L. Cameo Hybrids — See introductory description.				
Pink Cameo	Flowering size.....		3.00 each	Oct.
White Cameo	Flowering size.....		4.00 each	Oct.

L. Centifolium, Temple Hybrids—A vastly improved strain of Centifolium Hybrids produced after many years of selective hybridizing. Offered only in color strains of selected plants (not clones) which are marked separately during the flowering season each year. The following color strains are available for the present shipping season:

Amethyst Temple—Massive trumpets varying in color from light amethyst pink to deep columbine red. The pink coloring is on the interior as well as the reverse of the petals. Splendid for cutting or in the garden. In warm sections, planting in light shade is preferable to avoid bleaching. 5 to 7 feet. July.

Flowering size.....	14.40	115.00	Oct.
---------------------	-------	--------	------

Jade Temple—Pale misty greens and greenish whites are the outstanding colors in these large trumpet selections. Throats are greenish yellow or greenish white. Exteriors are usually brown or green. Anthers are of varying shades of yellow and brown. July and August flowering. 3 to 6 feet.

4-6".....	5.60	45.00	Oct.
6-8".....	8.75	70.00	Oct.

Marble Temple—The predominant color of this strain is lustrous pure white, ivory, or pearly white. The varying tones of white with the exterior markings resemble the colors seen in the finest marble. The large trumpets vary in external color from bronze, light yellow and green to brownish purple with yellow, green or pure white throats. 5 to 7 feet. July.

4-6".....	2.50	20.00	Oct.
6-8".....	3.25	26.00	Oct.

Sun Temple—Clarity and brightness of color are the prominent characteristics belonging to Sun Temple. The distinguishing color varies from clean light yellows to warm golden yellows. Occasionally the yellow exteriors are streaked with green, olive, or wine shades. The foliage and tall stems resemble the other Temple Hybrids. July and August flowering. 4 to 7 feet.

Flowering size.....	14.40	115.00	Oct.
---------------------	-------	--------	------

		Per 10	Per 100	Delivery Date
L. Chehalem Hybrids —Trumpets, large, colors vary from waxy white to cream with yellow, apricot or pale green throats. 5 to 6 ft. July.	6-7".....	3.75	30.00	Oct.
	7-8".....	5.65	45.00	Oct.
	8-9".....	7.50	60.00	Oct.
L. Cherokee —Semi-upright, large, brick red dotted maroon. 4 to 5 ft. Late July.	4-6".....	9.40	75.00	Oct.
L. Corsair —Erect, medium, tangerine orange flushed red at tips. 2-3 ft. June to July. Flowering size.....		11.25	90.00	Oct.
L. Dalhansonii —Recurved, medium, ox-blood red shading to tangerine orange at base. 4 to 5 feet. June.	Flowering size.....		2.00 each	Oct.
L. Dominion Hybrids —A new strain derived from crossing an upright form of L. Henryi with a white semi-trumpet Aurelian seedling. The large flowers are flat opening in pastel colors of light buff and apricot to cream white. The uniformly upright plants attain a height of 5 to 6 feet and will carry up to 40 buds with as many as 15 open at once. July to August.	Flowering size.....	15.00	120.00	Oct.
L. Frances Larrabee —One of the original Bellingham Hybrid clones. Recurved, large, deep cadmium yellow dotted burnt sienna. 5 to 7 feet. Late June to early July. Flowering size.....		12.50	100.00	Oct.
L. Golden Harvest Hybrids —This strain was originated in our gardens with an original cross of L. T.A. Havemeyer x L. Aurelianense, seedlings of which were then recrossed with L. Paulina Kline, L. Edmund L. Kagy and other hybrids of similar parentage. Semi-recurved, large, vary from cream white through lemon yellow to cadmium orange with deep green throats. 5-6 ft. August.	5- 6".....	7.50	60.00	Late Oct.
	6- 8".....	9.40	75.00	"
	8-10".....	11.25	90.00	"

		Per 10	Per 100	Delivery Date
L. Golden Harvest Select Color Strains—				
Large recurved and semi-recurved flowering plants selected and classified into color strains at blooming time each year. These are strains (not clones) and vary considerably within the colors listed. As yellow predominates in this group we can offer them in any reasonable number separately. The other colors will be labeled to color as indicated but of our selection. 5 to 7 feet. August to September.				
Select Yellow.				
6- 8".....	12.50	100.00		Late Oct.
8-10".....	16.90	135.00		"
Assorted Colors (our selection)— Light buff, dark buff, cream, apricot, amber, gold, green white, bicolors, etc.				
6- 8".....	15.00	120.00		"
8-10".....	18.75	150.00		"
L. Golden Harvest Special Select Clones—				
Semi-recurred and semi-trumpet flowers in a variety of colors from light yellow to deep buff. Selected clones sold under number only at present (our selection). All are outstanding plants developed over many years of hybridizing and selection. 5 to 7 feet. August to September.				Late Oct.
Flowering size.....	2.50	each		
L. Grenadier Hybrids— Medium to large semi-recurred to semi-upright flowers. Color range apricot and coral to light orange. 3 to 5 ft. Late June to August.				
3-4".....	2.65	21.00		Oct.
4-5".....	4.15	33.00		Oct.
L. Guinea Gold— Recurved, small, buttercup yellow dotted brown. 4 ft. Late June.				
4-6".....	18.75	150.00		Oct.
L. Humboldtii Hybrids— An outstandingly vigorous strain similar in color to the species except that the petals are flame tipped. Immense flower heads of 50 to 75 blooms on established plants. 5 to 6 feet. July.				
First size.....	2.50	each		Oct.

		Per 10	Per 100	Delivery Date
L. Jillian Wallace —The most interesting hybrid lily offered for many years. This plant is a cross between L. Speciosum Gilrey x L. Auratum "Crimson Queen" and the flowers show the influence of both parents. The large outward facing blooms open flat with slightly recurved tips. The color is basically white flushed and spotted crimson rose. 3 to 5 feet. August.				
Flowering size.....	2.50 each			Late Oct.
L. King William —A 1957 introduction originated by Dr. E. F. Palmer. The semi-recurved outward facing flowers are bright bittersweet color, spotted mahogany. The 5 to 6 foot stems carry exceptional heads of flowers, 40 or more not being unusual. July flowering.				
Flowering size.....	18.75	150.00		Oct.
L. Marhan —Recurved, small, buttercup yellow shaded and dotted oxblood red. 4-6 ft. Late June.				
4-6".....	15.00	120.00		Sept.
L. Marhan Ellen Willmott — Recurved, small, saffron yellow shaded and dotted oxblood red. 4 to 6 ft. Late June.				
4-6".....	18.75	150.00		Sept.
L. Marhan H. J. Elwes —Recurved, small, saffron yellow shaded and spotted mahogany. Exterior of petals suffused saturn red. 4 to 6 ft. Late June.				
4-6".....	18.75	150.00		Sept.
L. Mega—A Beltsville (U.S.D.A.) hybrid of 1956 introduction. Lemon yellow flowers of medium size carried horizontally on 2½ to 3 foot stems. Dotted mahogany. Long flowering period June to early July.				
Flowering size.....	12.50	100.00		Oct.
L. Morelia —See introductory description.				
Flowering size.....	18.75	150.00		Oct.
L. Mountaineer —Another Beltsville hybrid of recent introduction. Slightly recurved, medium size, outward facing. Capsicum red dotted dark brown at base. Graceful 3 to 4 foot stems. Mid-June.				
4-6".....	9.40	75.00		Oct.

	Per 10	Per 100	Delivery Date
L. Painted Lady Hybrids (<i>Martagon</i> x <i>Hansonii</i> Select Clones)—A balanced group of selected clones derived from seedlings of various <i>Martagon-Hansonii</i> hybrids. Typical martagon type flowers on stems from 4 to 6 feet, with up to 60 flowers to a stem. Colors range from white with few maroon spots through various shades of yellow dotted red, brown or rose, tangerine orange spotted red, spinel red with brown spots, lavender with garnet spots and so on. Available as numbered clones (our selection) or in mixture. Re-orders for specific clones will be filled when stock permits. June to July flowering.			
Mixed—Flowering size.....	15.65	125.00	Sept.
Numbered—Flowering size.....	18.75	150.00	Sept.
L. Paulina Kline — Semi-recurved, large, majolica yellow shading to saffron. 6 ft. August.			
Flowering size.....	2.00 each		Late Oct.
L. Pierette —See introductory description.			
Flowering size.....	18.75	150.00	Oct.
L. Potomac Hybrids Select —A scale propagated group of <i>Speciosum-Auratum</i> Hybrids with large flat opening semi-recurved flowers on stems up to 6 feet. Color generally similar to <i>Speciosum Magnificum</i> or darker. Very vigorous plants with long flowering season from August into September.			
Flowering size.....	18.75	150.00	Oct.
L. Preston's Hybrids Seedlings —Recurved and semi-recurved, medium, colors vary through all shades of yellow, orange and red. 3 to 5 ft. Late June through July.			
4-6".....	3.15	25.00	Oct.
L. Red Bird —One of Dr. E. F. Palmer's best hybrids of recent introduction. Semi-recurved, outward facing flowers, large, medium red shaded tigrinum rose with mahogany dots. 5 ft. July.			
Flowering size.....	15.00	120.00	Oct.

		Per 10	Per 100	Delivery Date
L. Samarkand —Recurved, medium, cardinal red with tangerine orange stripe at base of each petal. 3 to 4 ft. Mid-July.	Flowering size.....	18.75	150.00	Oct.
L. Satellite —See introductory description.	Flowering size.....	18.75	150.00	Oct.
L. Sceptre —Recurved, small, lemon yellow suffused fuchsia purple at petal tips, spotted purple. 5 ft. Late June.	4-6".....	18.75	150.00	Sept.
L. Shellrose Hybrids — Large trumpets tinted with variations of shell-pink, cameo-pink, or pale rose. Some are entirely pale pink, others white faced with a pink edging on the petals, which are sometimes ruffled. All have rose or purple exteriors. Partial shade and moist soil during bud growth will sustain their pastel coloring. Mid-July flowering. Height 4 to 6 feet.	4-6".....	3.75	30.00	Oct.
	6-8".....	5.60	45.00	Oct.
L. Siam —Recurved, medium, Indian orange dotted dark red brown. 3 to 3½ ft. Early July.	Flowering size.....	18.75	150.00	Oct.
L. Sovereign —Semi-recurved, medium, held horizontally from the stem. Golden yellow lightly dotted reddish brown. 3-4 ft. July.	Flowering size.....	15.00	120.00	Oct.
L. Sulphur Hybrids —Trumpet, large, vary from ivory to sulphur yellow, exterior tinged beet root purple. 6 ft. August.	6-8".....	12.50	100.00	Late Oct.
L. Sun Bronze —A 1956 introduction. Large flat opening flowers facing out and slightly upward (2/3 upright). Brick red dotted maroon with cinnamon brown anthers. 2½ to 3 feet. Early July.	4-6".....	7.50	60.00	Oct.

		Per 10	Per 100	Delivery Date
L. Sutton Court —Recurved, small, canary yellow shaded pink, red purple dots. 5 ft. Late June.	4-6".....	15.00	120.00	Sept.
	6-8".....	18.75	150.00	Sept.
L. T. A. Havemeyer —Semi-trumpet, large, soft buff with deep green throat. 6 ft. August.	6-8".....	2.50 each		Late Oct.
L. Testaceum "Nankeen Lily" —Slightly recurved, unspotted orange buff, scarlet anthers, delightfully fragrant. 5 ft. Early July.	5-7".....	10.65	85.00	Sept.
	7" up.....	15.00	120.00	Sept.
L. Typhoon —Erect, medium, flame scarlet. 2 to 3 ft. June to July.	Flowering size.....	8.75	70.00	Oct.
L. Umbellatum Incomparable (L. x Hollandicum var.) —Erect, large, rich crimson. 3 ft. June.	4-5".....	2.25	18.00	Oct.
	5-6".....	3.00	24.00	Oct.
	6-7".....	3.75	30.00	Oct.
L. Valiant —Semi-upright, large, deep cardinal red dotted black. 5 ft. July.	4-6".....	9.40	75.00	Oct.

**You are invited to join
THE NORTH AMERICAN LILY SOCIETY**

Among the many advantages offered, a membership in the Society entitles one to the Lily Yearbook of the Society printed annually containing a wealth of information for the specialist and amateur alike. Bimonthly newsletters, including contributions from members, cover current activities and answer questions of general interest from members. Special bulletins are put out from time to time such as "Lily Buyers' Guide and Supplements," "Lilies adapted to various parts of North America," "Growing Lilies from Seed," etc. Association with others keenly interested in the culture of lilies. The membership lists printed in the yearbook by countries and states will provide contacts throughout North America. Participation in the affairs of the Lily Society, particularly its annual meeting and exhibiting your flowers in society-sponsored shows.

CYCLAMEN HARDY

	Per 10	Per 100	Delivery Date
Atkinsi — Pink to pale rose flowers, marbled foliage. The earliest to bloom. January to March.			All Year
Flowering size.....	3.75	30.00	"
Medium size.....	5.00	40.00	"
Atkinsi Album —White form of the above type.			All Year
Flowering size.....	6.25	50.00	"
Cilicicum —Light pink flowers in fall following <i>C. Neapolitanum</i> (September to November). Foliage deep green mottled silver on edges.			All Year
Flowering size.....	5.00	40.00	"
Coum —Early spring flowering, February and March. Pink to deep rose flowers. Round unmottled foliage. Very distinct.			All Year
Flowering size.....	3.75	30.00	"
Medium size.....	5.00	40.00	"
Coum Album —Similar to type above except white with red base.			All Year
Flowering size.....	7.50	60.00	"
Europaeum — Mid-summer flowering (July to September). Distinctly fragrant crimson rose flowers. Marbled and mottled foliage.			All Year
Flowering size.....	5.00	40.00	"
Libanoticum — Rare species with large blush pink flowers, slightly fragrant. Leaves light green mottled silver white. March and April.			All Year
Flowering size.....	10.00	80.00	"
Neapolitanum —The most vigorous and easily grown species. Rose pink flowers. Foliage marbled and mottled silver and white. August to October.			All Year
Flowering size.....	2.50	20.00	"
Medium size.....	3.75	30.00	"
Extra large size.....	7.50	60.00	"
Neapolitanum Album —Pure white form of the above type.			All Year
Flowering size.....	3.75	30.00	"
Medium size.....	5.00	40.00	"
pseudo-Ibericum — Large brilliant crimson flowers on 6" erect stems. A rare species flowering in March and April. Round deep green foliage, variegated silver and white. Fragrant.			All Year
Flowering size.....	12.50	100.00	"

	Per 10	Per 100	Delivery Date
Repandum —Bright crimson flowers, foliage pointed and marbled silver white. April and May.			
Flowering size.....	5.00	40.00	All Year

NOTE: Cyclamen may be shipped satisfactorily at any time of the year that the ground is not frozen. Dormant corms of all species except *C. Europaeum* are available for only a short period during the summer (June to August). Otherwise they must be handled as growing plants. Complete cultural instructions sent with all cyclamen orders.

MISCELLANEOUS

Dictamnus Fraxinella (Gas Plant)—Bushy perennial with rose pink flowers on 3 ft. stems. Fragrant foliage. June to July.

Large size.....	6.25	50.00	Oct.
-----------------	------	-------	------

Dictamnus Fraxinella Alba—White flowered variety of above. Scarce.

Large size.....	6.25	50.00	Oct.
-----------------	------	-------	------

Fritillaria Pallidiflora—Large cream yellow bell shaped flowers on six to fifteen inch stems. A rare Siberian species flowering in mid-April.

Flowering size.....	5.00	40.00	Aug.
---------------------	------	-------	------

Fritillaria Recurva — Bright red funnel shaped flowers, brilliant yellow spotted red within. 1 to 2 feet. May.

Flowering size.....	2.00	16.00	Aug.
---------------------	------	-------	------

Fritillaria Thunbergii—Creamy white bell shaped flowers, veined green. Of easiest culture. 2 ft. April to May.

Flowering size.....	.75	6.00	Aug.
---------------------	-----	------	------

Incarvillea Grandiflora Brevipes — Hardy perennial with large lavender pink gloxinia like flowers on 6 to 10 inch stems. May.

Flowering size.....	5.00	40.00	Oct.
---------------------	------	-------	------

Trillium Ovatum—Nursery grown stock of our native Wake Robin. Flowers pure white turning to deep rose purple with age. 12 to 18". March to April.

Flowering size.....	1.90	15.00	Sept.
---------------------	------	-------	-------

ERYTHRONIUM (Trout Lily or Dog's Tooth Violet.)

	Per 10	Per 100	Delivery Date
Americanum —Bright yellow flowers on 3" to 5" stems. Deep green, mottled foliage. April flowering.			
Flowering size.....	1.00	8.00	Aug.
Californicum —Flowers like miniature lilies, cream colored, born in clusters on 10 to 15 inch stems. Richly mottled foliage. April to May.			
Flowering size.....	1.50	12.00	Aug.
Dens-canis —European species with large flowers on short 3 to 4 inch stems nestled in bronze mottled foliage. Of the named varieties available the following are outstanding. Late March to April flowering.			
Frans Hals —Light reddish violet.	1.50	12.00	Aug.
Pink Perfection —Light pink.	1.25	10.00	Aug.
Rose Queen —Deep pink.	1.25	10.00	Aug.
Snowflake —White.	1.50	12.00	Aug.
Giganteum —Cream white flowers with greenish yellow base, margined chestnut red. 8 to 16 inch stems. Marbled foliage. April flowering.			
Flowering size.....	1.50	12.00	Aug.
Hendersonii —Light purple flowers with almost black centers. Mottled foliage. 10 to 12 inch stems. Early April.			
Flowering size.....	1.50	12.00	Aug.
Purdyi —Large pale lemon yellow flowers on 8 to 10 inch stems. Foliage olive green lightly mottled. Late April.			
Flowering size.....	1.50	12.00	Aug.
Revolutum Var. Johnsonii —An exquisite variety, flowers deep rose with orange center. Foliage mottled dark brown. 10 to 15 inch stems. April to May.			
Flowering size.....	1.50	12.00	Aug.
Touloumnessis —Bright clusters of yellow flowers on 12 to 15 inch stems. Light green unmottled foliage. Produces a very large bulb. Early April.			
Flowering size.....	1.50	12.00	Aug.
Large size.....	2.00	16.00	Aug.

Size of packets varies with the rarity of the species. Some varieties of seed are available in pound lots—prices upon application. Seed orders are accepted subject to crop, stock on hand, and safe arrival of imported seed.

All seed prices include postage in U. S. and Canada. Foreign or Air Mail postage extra.

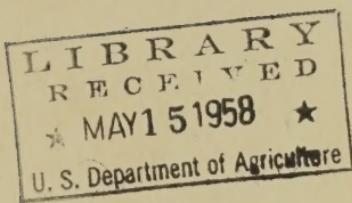

Hardy Cyclamen

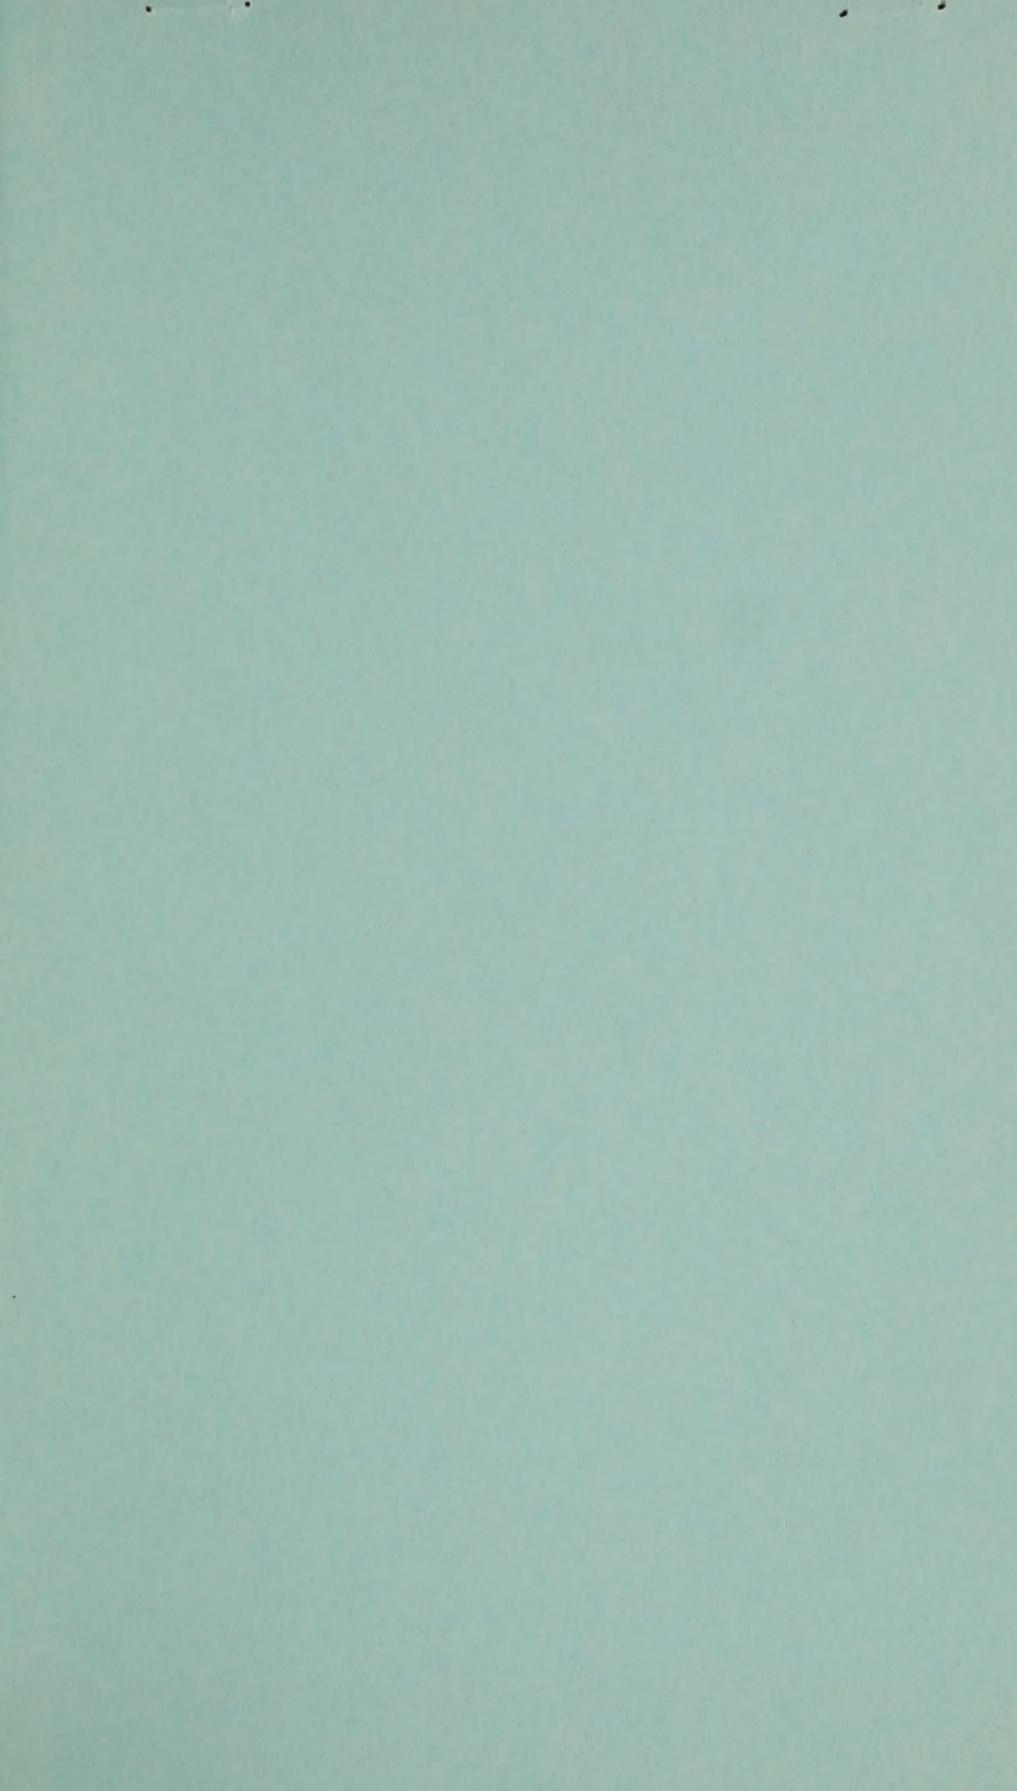

Handsome perennials of easiest culture. Ideal for all partly shaded situations in rockeries, woodland borders or as ground cover about shrubs or other perennial plants.

Continuous succession of bloom for ten months with proper selection of varieties; summer and fall from July to late November; winter and spring from December to May.

Flowers in various shades of pink, rose, crimson rose, red purple and white accompanied and followed by beautifully mottled and marbled foliage.
